AUTO, RACING WITH FAST TRAIN, GOES INTO DITCH

Party of Pittsburg Tourists Has Miraculous Escape in Thrilling Mishap Near Adams Mills Saturday

While racing with an eastbound Pennsy passenger train shortly after the noon hour Saturday between Adams Mills and Robinson's crossing, A. C. Neighbor and wife and three other tourists all from Pittsburg riding in the Neighbor big six cylinder Packard automobile, went into the ditch while running 55 miles an hour, when a front tire blew up.

Mr. and Mrs. Neighbor occupied the front seat while the three companions whose names were not learned, occupied the tonneau. The latter were thrown clear of the car when it struck the ditch swerving sharply and falling on its side. At the point of the road where the accident happened is much shrubbery and the occupants of the back seat were thrown into this and alighted in such a manner that they escaped with a few minor scratches and bruises. Mr. and Mrs. Neighbor, uninjured, although badly frightened, were found clinging to their seats.

Car Little Damaged

As the party were finding themselves, a farmer driving a team to a big wagon came along. He was stopped, the horses hitched to the machine and it was pulled back on all four wheels and into the road. An examination showed that nothing was broken and that the only thing necessary to continue the journey was a new casing. The old casing was roped to the front wheel and the car driven on low speed to this city. A new casing was secured at the Standard Auto Company garage and the party continued on its way.

Come From Kentucky

They stated they had been touring in Kentucky and had visited the Mammoth Cave and other points of interest. They left Cincinnati Friday morning spending the night in Columbus. The car is a new one and Mr. Neighbor sated this was the first accident they had had upon their trip.

Child Burned by Kettle of Beans

Ethel, 18 months old daughter of Mr. and Mrs. Martin Sprague of South Tenth street, was badly burned about the face, right shoulder and chest Thursday evening when a kettle of hot beans spilled over her.

Kettle Falls from Stove

The baby was sitting on the kitchen floor playing while the mother was preparing supper. The kettle of beans had been set on the edge of the stove so close that the vessel slid off. It landed on the floor directly beside the baby throwing the contents all over the child. Dr. T. W. Lear was called. The child is doing nicely.

MIND UNBALANCED BY WORRY OVER MURDER

John Steirstein, a well known farmer of the Spring Mountain vicinity, was adjudged insane by Judge Ashman Saturday and committed to the Massillon hospital.

Steirstein is a brother of the Mrs. Steuer, who was murdered at her home in Medina county several months ago and whose body was found buried in a barn. The victim's aged husband is being held on a first degree murder charge in connection with the crime.

It will be recalled that Steirstein was a visitor at the Steuer home, leaving the day before the disappearance of his sister. It is thought that worry over the sister's tragic death had much to do towards unbalancing him mentally.

INSPECTORS ARE BUSY AT NEWCOMERSTOWN

Following an inspection of buildings at Newcomerstown by Deputy Inspector of Workshops and Factories Joe Callahan, of Coshocton, orders were issued Friday at Columbus by Chief Inspector Kearns that will keep contractors and carpenters there busy during the winter.

Better Fire Protection

The Grand picture theatre, city opera house, Modern Woodmen hall, K. of P. hall and several buildings in which stores are located do not have sufficient fire protection, according to Inspector Callahan. Fire walls and fire escapes were ordered for most of the structures.

Opinion by Justice

Last week a justice of the peace at Kenton, in an elaborate opinion which teemed with legal learning, held that the building code which was compiled by building experts two years ago at a huge expense to the state, was unconstitutional because it was "class legislation." It is not thought that the Newcomerstown property owners affected by the building orders will invoke the learned justice's holding to evade their responsibility to improve their buildings along the lines suggested by Inspector Callahan.

ROOSEVELT NOT YET OUT OF DANGER

Chicago, Oct. 19—A bulletin, issued by physicians attending Col. Roosevelt tonight, were startling to those who were hopeful of his rapid recovery and expected that he would be able to leave Mercy hospital for his home in Oyster Bay Monday. The bulletin was as follows:

"All danger has not yet passed but on the contrary, sufficient time has not yet elapsed for the repair of such a serious wound to take place."

"Pee Wee" is Escorted to City Limits

George "Pee Wee" Moore was escorted to the city limits Saturday and told to hike as fast as his legs would carry him and never allow his countenance to be seen in this city again.

Moore is an old offender. He appeared in this city sometime ago wearing a big constable's badge and carried a big six shooter and handcuffs. He had been started out to hunt a criminal for the Uhrichsville authorities he said. This originated it seems in a mind made highly imaginative by indulgence in barley corn juice. Detective Charles Doney awakened him from his dream when he attempted to board a Pennsy passenger train.

His belongings were kept for security and he was turned loose to secure money to pay his fine. Friday he again appeared here and was taken from Pennsy train No. 18 and locked in the city prison by Doney for drunkenness.

Chief Mapel took him in hand yesterday and gave him one last chance to travel. He traveled.

Lock Too Much for Thieves

Sneak thieves, hoping to get a supply of winter apples, made an unsuccessful attempt to force an entrance to a shed, filled with choice Baldwins, Pippins, etc., on the farm of Carl Dickey, southeast of the city, several nights ago.

The next morning, Mr. Dickey found that the lock had been tampered with but the thieves had been unable to unlock or pry it from the staple.

Johnson Released on Bond

Chicago, Oct. 19—Charged with the abduction of Lucile Cameron, a 19-year old white girl, Jack Johnson, negro pugilist, was arrested today and released on a cash bond of $800, furnished by himself.

Johnson was arrested on a warrant sworn to by Mrs. Cameron-Falconet of Minneapolis, mother of the girl. United States attorney James H. Wilkerson ordered a thorough investigation to determine whether the Mann act, prohibiting illegal transportation of women from one state to another, had been violated.

Mrs. Cameron-Falconet appeared before Judge Owens in the county court and swore to a formal complaint that her daughter was insane.

Judge Owens issued a commitment order for detention of the girl at the Detention hospital pending investigation as to her mental condition.

Now Charge 15 Cents to Conesville

The Pennsy and Wheeling have laid down their swords and as a result the traveling public must suffer.

The fare between Coshocton and Conesville will be 15 cents on both roads after November instead of 10 cents as in the past. The distance is seven miles. The Wheeling first cut the rate to 10 cents and the Pennsy followed suit.

Recently the fare between Coshocton and West Lafayette was raised from 10 to 15 cents. The distance is the same as to Conesville.

Fair Prices Brought at Smailes Sale

The sale held Saturday at the J. V. Smailes farm near New Moscow was well attended and the stock, farm implements, etc., offered, sold readily and brought fair prices. Mr. Smailes and his family expect to move to Conesville, and Emory Wright of Conesville, who recently purchased the Smailes farm will move his family to the farm in a few days.

Mrs. Raymond Huston has been called to Columbus on account of the serious illness of her sister, Mrs. Fred Glass.

LITTLE BOATIE

Furl your sail, my little boatie;
Here's the haven still and deep.
Where the dreaming tides on-streaming
Up the channel creep.
Now the sunset breeze is dying;
Hear the plover landward flying,
Softly down the twilight crying;
Come to anchor, little boatie,
In the port of Sleep.

Not for you, my little boatie,
Is the wide and weary sea;
You're too slender and too tender,
You must bide with me.
All day long you have been straying
Up and down the shore and playing,
Come to harbor, no delaying!
Day is over, little boatie,
Night falls suddenly.

Furl your sail, my little boatie,
Fold your wings, my weary dove.
Dews are sparkling, stars are twinkling
Drowsily above.
Cease from sailing, cease from roving;
Rock upon the dream tide, knowing
Safely o'er your rest are glowing,
All the night, my little boatie,
Harbor lights of love.

Bullet Marked Suspenders to Teddy's Nurse

Chicago, Oct. 19—The suspenders worn by Col. Roosevelt on the night he was shot and which are marked by a hole from the bullet were presented by the distinguished patient last night to Irving J. Kumbalek, his male nurse at the hospital.

Col. Roosevelt's attention was called to the soiled suspenders lying in his room, and he called Mrs. Roosevelt.

"Mother," he said, "I think you had better send those suspenders to the cleaners, hadn't you? They look pretty rusty."

"Mercy," exclaimed Mrs. Roosevelt, examining them, "you don't intend ever again to use them do you? Why they have a hole in them."

"If you are going to throw them away, colonel, I would like very much to have them," spoke up the nurse who was a witness to the conversation.

"Certainly," laughed the colonel, "take 'em away."

Lies Helpless on Porch of Lonely Home Many Hours

Mrs. Magdalena Trottman, Aged 83, of Marquand Mills Vicinity Succumbs to Attack of Pneumonia Saturday

Contracting pneumonia as a result of exposure, when she lay helpless for many hours on the porch of her lonely home near Marquand's Mills, Mrs. Magdaline Trottman, aged 83, died at 1:30 o'clock Saturday afternoon. The aged lady lived alone on a road little traveled. Thursday night, she became seriously ill. Her nearest neighbors living a mile away, and being unable to walk, her only hope was to attract the attention of passersby. Friday morning, she succeeded in making her way from bed to the front porch of her home, where she was compelled to remain in the cold and damp air until the afternoon, when she was found by a man, passing along the road in a buggy.

Stricken by Paralysis

Neighbors were at once notified and everything possible was done to make the unfortunate woman comfortable. The house was cold and damp because she had been unable to build a fire. Evidently she had been stricken by paralysis for in addition to being practically helpless, she had also lost her power of speech. Medical aid was summoned but she grew steadily weaker during Friday night and Saturday until death claimed her.

Many A White Hope Turns Out To Be A SLIGHT HOPE

LOCALS WIN POORLY PLAYED GAME FROM MILLERSBURG HIGH

The Coshocton High school team won from the Millersburg eleven by the score of 47 to 0 at Riverside park Saturday afternoon.

The Millersburg team was clearly outclassed and it cannot be said that they played real football at any time. Had they even known the rudiments of the game it is probable that the home team would have had a hard time winning as the latter bunch, with two exceptions, played in anything but good form. They seemed to lack the usual amount of "pep" and failed to get away with the forward passes.

Clark and Johnson Star

Clark and Johnson were the two exceptions, the former seemed to realize that it was his last game of the season and was by all means the star making good gains and running hard with the ball. Johnson showed up well on the defense blocking many plays and making good tackles. Love, Secrest, Cohen and Donley were not up to their usual good form but at times they made good plays. Sauvel fell short of his good showing in previous games and seemed to show little of his usual aggressiveness. McCleary missed many forward passes but during the last part of the game showed good form and partially redeemed himself.

Fullback Elder Shines

Elder, the big fullback for the visitors, was the best man on their team and made most of the gains but his good playing cannot be attributed to his knowledge of the game or to his head work as his weight only carried him through.

Secrest took more time to his goal kicking and as a result only missed two goals out of seven trys.

The locals did not show the required knowledge of the game to form any interference on the kickoff and as a result little return was made when they received.

First Quarter

Millersburg kicked to Secrest on 20 yard line. Returned 10. A forward pass was tried to Sauvel and missed. Two good bucks by Clark and one by Simmons netted the first down. Cohen circled end making pretty run through a broken field for 25. A forward pass to McCleary went for 15. Forward pass to Sauvel missed. McCleary took forward pass for 6. A pretty buck by Donley and end run by Cohen carried the ball to within three yards of goal. Clark bucks across the line for touch down. Secrest kicked goal.

Secrest kicked 40 and Millersburg returns 5. After a series of unsuccessful bucks end end runs Wolfe downs runner for loss and ball goes to home team on downs. Quarter over. Score, Coshocton 7, Millersburg 0.

Second Quarter

Clark bucks 5, Sauvel goes 20 on forward pass. Clark bucks 9 Cohen makes the prettiest run of the game around end for 20. Secrest bucks 6. Clark bucks to the goal line and Cohen carries it over. Secrest kicks goal.

Coshocton kicks to Millersburg on 15 yard line and is penalized 5 yards and forced to kick off again on offside playing. Millersburg returns the kick to Cohen who fails to make gain. Coshocton loses ball on downs showing poor form in getting away with forward pass. Love tears through line downing man for 15 yard loss. Millersburg fumbles and Coshocton recovers ball. Secrest makes nice end run for 20. Millersbur_'s ball on downs. Love again tears through the line recovering fumble and, making the most spectacular play of the game, carries the ball 25 yards for touch down. Secrest kicks goal and the half is over. Score, Coshocton 21, Millersburg 0.

Third Quarter

Simmons fumbles kick off but recovers. Sauvel goes 30 on forward pass. Coshocton takes a brace and an end run by Love and two good bucks by Clark get 20. McCleary goes 20 on forward pass for touch down. Secrest missed goal.

Millersburg receives on 10 yard line and returns 15. Donley thrills the crowd by intercepting a forward pass and gaining 20. Cohen goes 20 on forward pass. Clark bucks to opponents' 2 yard line and goes out of bounds. Donley bucks the remaining 2 and Secrest kicks goal.

Millersburg receives on 5 yard line and returns 25. Forced to kick. Cohen received and returns 10. A series of line bucks and end runs by Clark and Secrest takes ball to Millersburg 15 yard line. Sauvel goes for touch down on forward pass. Secrest kicks goal.

Coshocton kicks off, Millersburg returns 10. Secrest intercepted forward pass and quarter ends with ball in Coshocton's possession.

Fourth Quarter

Cohen bucks 5. Millersburg penalized 15 for interfering. Coshocton penalized 15 for spectators on field. Coshocton loses on downs. Millersburg loses on downs. Sauvel goes 25 for touch down on forward pass. Secrest missed goal. Coshocton receives and game ends with ball in Coshocton's territory. Line-up and summary:

MOTHER TAKES SON'S BLOOD

Man Travels 500 Miles to Undergo Blood Transfusion in Effort to Save Parent's Life.

Memphis, Tenn., Oct. 20.—Clifford Wright of Chicago traveled 500 miles to Memphis to save the life of his mother, Mrs. S. L. Wright, wife of a wealthy Memphis cotton broker.

Young Wright and the mother were placed on an operating table where a quart of the son's blood was transfused into the mother.

Previous attempts to aid Mrs. Wright by transfusion failed. Both stood the operation well.

In a few days Mrs. Wright is to undergo an operation for kidney trouble, the transfusion having been made to give her strength to stand the operation.

BATTLE GOING ON AT MELUNA PASS

TURKS AND GREEKS REPORTED IN ENGAGEMENT ON NORTHWESTERN FRONTIER.

DISEASE GERMS TO BE USED

By Ottoman Government, It Is Claimed, in Effort to Outdo the Balkan Countries—Greek Fleet Sails From Athens Under Sealed Orders.

TURKS TO FIGHT WITH GERMS?

London, Oct. 20. — Dispatches have been received here stating that several Turkish army doctors have been sent from Constantinople to Janina, a city near the Greek frontier, with a supply of typhus and cholera germs for the purpose of spreading disease among the troops of the enemy.

Constantinople, Oct. 20.—An official report, issued last night, says that the Greek army has attacked the Turks in the region of Meluna Pass, and that the battle continues.

Maluna Pass is on the northwestern frontier of Greece and just south of Elassona, Turkey.

Sealed Orders for Greek Fleet.

London, Oct. 20.—The Greek fleet has left Athens under sealed orders for an unknown destina..on.

Heavy fighting is said to have been in progress since daylight Friday near Kirk-Kilisseh and Mustafa Pass, close to the frontier.

That the Bulgarians have been victorious is the deduction from a message sent to the Daily Express by its correspondent at Sofia.

Macedonia Is Invaded.

Servian troops have invaded the Kossovo district of Macedonia and are said to have captured Prishtina, which is a town of importance, as it commands the railway approach to Uskub. If the Servians gain control of the railway line from Mitrovitza to Uskub, military experts here believe the Turkish garrisons on the Montenegrin frontier are lost.

Five divisions of Greek troops with aviator scouts are moving forward to Thessaly. They have met with no resistance so far.

The first division, according to a report from the crown prince, is moving toward Bo'a; the second is marching on Kosmolonstan, and the third is advancing on Tiaritia. The route the two other divisions are following is not known here.

Montenegrins Advancing.

The Montenegrin army is advancing on Scutari, but is said to be in an unfavorable position on the marshy ground about Scutari.

The first great battle cannot now be fought for some days. It is expected to be fought in the Adrianople district. Nazim Pasha, the Turkish commander-in-chief, started for there Friday night.

Deny Use of Germs.

Nazim, Pasha, Turkish minister of war, started for the front today, according to a message from Constantinople, accompanied by a big retinue of foreign military observers and war correspondents.

The Turkish war office has issued an indignant denial of the report that it is planning to use typhus, typhoid and cholera germs against the enemy.

The Turkish surgeons are simply provided with serums for inoculation of their own troops against disease. The war office charged that the alleged falsehood was deliberately given circulation by the Greek government.

Turks Slaughter Defenseless.

Belgrade, Oct. 20.—Turkish irregulars have invaded Servia, southwest of Krushevatz, and massacred the inhabitants of three villages, sparing neither men nor women, old or young, according to a report current here.

ROOSEVELT NOW ON WAY TO RECOVERY

Little Fear Is Expressed for a Setback From the Wound—Safely Passed the Crisis.

Chicago, Oct. 20.—Colonel Roosevelt spent the most comfortable night since he was shot and awoke at 7 a. m. with the remark that he still felt "bully." His statement was borne out this time by the clinical record of the morning, which was: Pulse 72, temperature 98 and respiration 18, all being normal.

The physicians are agreed that the colonel has safely passed the crisis of his trouble and that every hour will now find him more rapidly advancing toward complete recovery.

Will Leave Hospital Monday.

"Colonel Roosevelt will leave Mercy hospital for Oyster Bay Monday forenoon at 8.15 o'clock over the Pennsylvania railroad," was the announcement made Saturday by Dr. Alexander Lambert, the colonel's family physician.

Murderer Pays Death Penalty.

Pinckneyville, Ill., Oct. 20.—George Engel was hanged here for the murder last May of his wife and sister-in-law.

Forewarned.

"Your father tells me," said the earl, "that he intends to leave all his money to charity." "Oh, don't let that worry you at all," replied the beautiful heiress. "I'm sure he doesn't mean it. He told me last night that he was going to try to find out whether you really loved me for myself alone."

"THE FORTUNE HUNTER"

"The Fortune Hunter." It will be the theatrical event of the season at the Sixth St. Theatre Monday evening October 21, when Winchell Smith's comedy "The Fortune Hunter," will be interpreted by a strong cast.

In writing "The Fortune Hunter," Winchell Smith has furnished the American stage with a rural comedy, minus the hackneyed types usually found in plays of its order. It is a fresh, clean, amusing and vigorous exposition of a series of incidents in the life of a young ne'er-do-well, who, to retrieve his almost hopeless fortunes, seeks the seclusion of a country village in order to build up his fallen fortune by a matrimonial alliance with the village heiress.

The preliminary sale of seats for "The Fortune Hunter" is now on and our readers are advised that if they contemplate seeing this fine play it will be well to secure their reservations in advance.

BILLY RUGH'S AWAKENING

"I guess I'm some good after all," said William Rugh when the doctors told him that the girl for whom he had submitted to a major operation would live, but that he would soon have to cross the Great Divide.

And with that thought sustaining him, Billy Rugh, the newsboy tramp, looked steadily at the faces around him, smiled as broken words of praise were spoken to him, closed his eyes on time and opened them on immortality.

There is no Family Bible to inform the world when and where Billy Rugh first saw the light of day. He was a Low Brow. He blew into Gary, Indiana, a few years ago and seemed to take kindly to life in the "toughest town on the continent."

He had a game leg, so his choice of occupations was limited. He decided to go into the newspaper business and, as he put it, "I gotta fren' to stake me to de first bunch an' after dat it was easy money."

Ethel Smith was the victim of a motorcycle accident. She was badly burned, so badly that her life was despaired of. It got to the point where it was necessary to perform a skin grafting operation on her, else she would die.

So they advertised for a victim—and they found a hero.

Billy Rugh, rough neck, tramp, newsie and an all-around worthless character, who had never heard of Miss Smith and of whom she had never heard, answered the advertisement.

He came to the hospital and explained that he had a worthless leg and if they wanted it, why just to go ahead and cut it off and use it in a way to do the most good.

They took Rugh at his word, cut off his leg, grafted the skin to the burned places on the girl's body—and she got well. But Billy didn't. He developed a case of pneumonia, and that together with the savage wound they had inflicted on him "put out his lamps," as he would have expressed it.

Billy Rugh never in all his life had tried to "make good" in the sense the world uses that expression. He couldn't have "made good" if he had tried. He sold enough papers to keep from being a public charge, which is more than a great many able-bodied men can say.

But when Billy Rugh came face to face with the one TEST which of necessity comes to all of us, he more than "made good." HE DID GOOD.

The spark of divinity flamed within him. He saw a chance to be of real use. An opportunity had come to SERVE. And that divine spark lighted up the soul of that outcast and the rays of light shot clear across the vistas of time and gave him a glimpse of IMMORTALITY.

No human lips had ever pronounced the Biblical injunction to Billy Rugh, and yet as the light faded and his eyes wavered and he groped his way across the BORDERLAND, there came this assurance to the translated newsboy: Greater love hath no man than this, that a man lay down his life for his friends.

THE CREST OF THE YEAR

Without waiting for the authoritative word from governor or president the American people can well give thanks this year for the rich gifts which nature has showered upon them. The seasons, each in their turn have rewarded the work of the husbandman with a generosity seldom equalled, even in this land of plenty.

There has been no period of growth. At no time has the earth been desolate. Only eight days ago, when farmers began to fear lest there should be sufficient moisture to germinate their fall planting, a gentle, copious rain fell the long night through and restored the rapidly parching ground to its accustomed fertility.

So has it been throughout the growing season of this good year, 1912. Seldom has it been equaled. Seldom has the tiller of the soil been accorded such a uniformly good weather for the sowing and reaping of his crops. Rarely has nature yielded more bountifully of her products.

Rain and sunshine have alternated. Meadow lands and pastures have worn a garb of livid green throughout the growing season. The staple cereals of the hot or lands and the fruits on the thousand hills have added to the wealth and provided the necessities of life for all mankind.

These are the essential things of life. And yet so accustomed have we become to reaping our harvests in season and enjoying the fulness of the earth that we accept the gifts of Providence as a matter of course and murmur when the lean years are upon us.

But today we have reached the crest of the year. The rapidly greening wheat fields, typical of the resurrection that is to come, and the "sear and yellow leaf," nature's crown of glory in the departing of the year, all beckon us to turn devoutly to the Giver of all that is good and thank him fervently for the fullness of his gifts and the "peace that passeth understanding."

PEOPLES' FORUM

BELL MAKES STATEMENT

Editor The Tribune:

I am informed by the voters of some sections of the county that Dr. Criswell is making the statement that I have taken advantage of him by answering the questions submitted by The Tribune to the legislative and senatorial candidates, on the ground that I had said to him that my intentions were "not to submit answers."

In order to avoid the possibility of being wrongly construed it seems necessary to make a complete explanation of the facts.

On Wednesday of the fair, while talking with Dr. Criswell, he mentioned the questions of The Tribune and I stated that "I had not submitted answers and my intentions were not to do so"—being very busy with my campaign and law work, so that I had not been able to give them sufficient consideration.

Dr. Criswell also stated that "he was not going to answer the questions and had so informed the Tribune," at the time.

On the following day I received information that Dr. Criswell had been in conference with the Anti-Saloon League and made terms with them.

On learning of his purpose to thus work with them silently and keep his position "clark" here, by not answering the questions, his advantage by the double dealing and silence became apparent, and I decided to submit answers to the questions.

On Saturday I sent Dr. Criswell a letter informing him of my change of purpose, as follows:

Dr. D. M. Criswell,
Plainfield, Ohio.

Dear Sir:—

On talking to some of my friends after the day on which you and I talked, I found that there were many who thought that I should answer the questions propounded in The Tribune, and so I may change my opinion in that regard from the one expressed to you in town here.

At that time, I had not considered the matter seriously at all, nor have I had time as yet to give it much attention or thought. But in order to be fair in every possible outlook of the matter, I am taking the pains to make this explanation, so that you would know that I probably will submit answers to the questions.

Cordially yours,
C. R. BELL.

On the following Tuesday morning the answers were printed.

I knew of no further effort to be fair, that could be expected of me.

This change of purpose on my part in no way interfered with Dr. Criswell's opportunity to answer, specially since he had reported his decision to The Tribune previous to our talk. It is still my wish that The Tribune extend to Dr. Criswell every opportunity to answer, that he may desire, and I am informed by the editor that the same will be done.

Respectfully submitted.
C. R. BELL.

The Last Word in Pipe Organs

The organ installed in the Presbyterian church by the Estey Organ Company of Brattleboro, Vermont and dedicated at today's service, represents the very highest development of pipe organ construction.

It is equipped with the Tubular Pneumatic Action throughout, including the stop action. The stop action has departed from the old style of draw stops and makes use of the Tilting Tablets.

As to the voicing of the organ, the Open Diapasons, three in number, represent a very large volume of real organ tone. The String tones are in evidence but not unduly so, and the Flute registration is especially pleasing and desirable.

The tones of the various stops are especially pure, and the characteristic quality of each individual stop is preserved throughout the entire length of the registration, and there is no borrowing from one stop to supplement an incomplete set of pipes in another stop as is sometime done.

Each pipe in each stop of the organ has its own individual supply of wind, thereby avoiding the robbing or gasping of the pipes which is sometimes noticed in organs where an insufficient supply of wind, or an incorrect method of supplying the wind, enters into the construction.

The program for both services today was published in yesterday's Tribune. Monday evening at the church there will be an organ recital given by Mr. S. Dwight Smith, one of the best known artists of Pittsburg. The public is cordially invited.

Providence in Human Affairs.

If a great change is to be made in human affairs, the minds of men will be fitted to it, the general opinions and feelings will draw that way. Every fear, every hope, will forward it; and then they who persist in opposing this mighty current in human affairs will appear rather to resist the decrees of Providence itself than the decrees of men.—Edmund Burke.

Advice to Lawyers.

To a counsel arguing before him at Clerkenwell (Eng.) county court, Judge Edge remarked: "Let me tell you a story of a case in which as counsel I appeared before Mr. Justice Mellor. I had used my strongest arguments, and thinking I was not convincing him I used some weak arguments afterward. Mr. Justice Mellor said to me: 'Now Mr. Edge, don't put too much water in your brandy.'"

A TEN CENT BOX OF "CASCARETS"

Insures you for months against Headache, Biliousness, Constipation, Bad Stomach.

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, Indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children just love to take them.

Religion and Medicine

S. B. HARTMAN, M. D.

Is there any intimate relation between religion and medicine?

Yes, there is. The old-time healer was also the priest. Theology and medicine have not maintained their separate existence very long. They used to be one. Yes, there is an intimate relation between religion and medicine.

It is well known of a person who eats with anger, unkindness and illnatured spirit, that his food will not have the same effect as if he were in a kindly mood. The same is true of medicine. If a person swallows a medicine with suspicion, has no faith in its action, is more or less afraid of the one who gives him the medicine, it cannot do him as much good as if he had unwavering faith in it.

The mind has a wonderful influence over the body. Those who believe that a loving Father controls the destiny of mankind are a great deal better prepared to meet the vicissitudes of life and to overcome disease than the one who has no such faith. A truly religious man makes a better patient than an irreligious man.

In using the word religion I am not referring to any particular kind of religion. The Jew and the gentile, the Catholic and the Protestant, each have a religion in which they believe. They also agree in the essentials.

A religious man may believe that it is necessary for him to use every means in his power to get well. He may believe that it is perfectly proper for him to employ doctors and take medicines. But he also believes that when he has done the best he can there is a higher power that has charge of his affairs, that absolute justice will be done him, that no evil thing can befall a good man. He goes forward with confidence, sick or well, rich or poor, and gets a great deal more comfort out of life than the man who has no religion.

I have found myself saying many times to people who have a chronic ailment, "You need religion as well as medicine. You need faith in an over-ruling providence that guides everything to wise ends; that the affliction of disease teaches a lesson that every one should strive to learn."

This does not mean that sick people are to sit down and trust that an over-ruling providence will do everything. Nothing of the sort. He is to use remedies guided by his best judgment, but in the use of them he can believe that all things are well and that in the end all things will come out right. All medicine has a better chance to cure a man who holds such a faith.

Some men are so faithless and unbelieving, so restless and desperate, their minds so unsettled, that even the best of medicine has little chance to do them any good. Therefore I say that religion is often quite as necessary as medicine, that the want of religion frequently defeats the action of the best medicine.

Many a chronic invalid has searched in vain for a physical remedy simply because he has lost his grip on vital religion, the religion that not only provides salvation in the world to come, but soundness of body and mind in the world that is.

Yes, there is a most intimate relation between medicine and religion. Other things being equal, the religious man stands a good chance of getting well when he is sick, while the religious man frequently gets well in the most surprising way after the doctor had given him up to die. With true faith in a rational religion and an obedient use of the right remedy a great many hopeless invalids could be restored to perfect health.

Well, you have made it clear as to what you mean by religion. Now what is the remedy you would recommend?

Of course I would recommend different remedies for different conditions. But the particular remedy that I am interested in at this time, the remedy that meets more chronic ailments than any other remedy I know of, is Peruna. Peruna is a remedy for that multitudinous group of ailments that are dependent upon catarrhal derangements.

I am furnishing a book on catarrhal diseases which I send to any person free. In this book I explain quite fully the uses of Peruna. Those who do not care to wait to send for the booklet at this time will find information and instructions as to the general uses of Peruna explained within the wrapper of each bottle.

Peruna, Manalin and Lacupia manufactured by the Peruna Company, Columbus, Ohio. Sold at all drug stores.

SPECIAL NOTICE:—Many persons inquire for The Old-time Peruna. They want the Peruna that their Fathers and Mothers used to take. The old Peruna is now called Katarno. If your druggist or dealer does not keep it for sale write the Katarno Company, Columbus, Ohio, and they will tell you all about it.

WILSON LEADS IN 300 PRECINCTS

Columbus, O., Oct. 19.—At the Democratic state headquarters a poll of 300 precincts scattered all over the state has been compiled, and it shows the following totals on the national and state tickets.

Wilson, 53,992; Taft, 31,664; Roosevelt, 16,704; Debs 3321.

Cox, 53,597; Brown, 32,714; Garford, 14,916; Ruthenberg, 3203.

The same precincts in 1908 gave Harmon 55,621 and Harris 54,801. The polls were taken on October 1, so that they reflect September conditions.

In giving out the results Chairman Finley stated that the persons taking the polls had been instructed to put down as voting the straight Republican state and national tickets, all Republicans who would not state to the Democratic pollers that they would vote for Roosevelt or Garford or both. For this reason he holds that the poll is much more favorable to the Democrats than appears on the surface.

Hon. William A. Ashbrook

Measured by votes William A. Ashbrook is the most popular representative the Seventeenth District has ever sent to congress. He was elected first to the Sixtieth Congress and beat his Republican opponent, Judge Snyder, by only 185 votes.

For his second term he received a plurality of 7,173 votes, a record even his closest friends thought could never again be duplicated. But subsequent events proved that even his friends had underrated his running ability. He was chosen a member of the Sixty-Second Congress by the unprecedented plurality of 10,984 votes, an accomplishment never before scored by a candidate for the House of Representatives in the Seventeenth District.

Gaining wisdom from his past record, none of his friends is today willing to say what plurality he will pile up in what is everywhere admitted to be a "Democratic year." It is safe to say, however, that the regard in which Mr. Ashbrook is held in every county of the District will be manifested on November 5 and be sufficient to prove that he has lost none of the esteem in which he is held by his constituents.

In a literal sense of the word, he has been a servant of the people. Early and late he has sought to promote the welfare of his constituents individually and en masse. He is in accord with the progressive ideas of such Democratic leaders as Wilson, O'Gorman, Bryan, Marshall and all the long list of men who are fighting special privilege and seeking to restore popular government to the hands of the people.

Kid McCoy in Jewel Robbery Case at Luna

The Luna Theatre has another feature for Tuesday. It is "Kid McCoy in the [illegible] at Jewel Robbery Case" in three reels that promises to be full of sensation and crime mystery.

Last July "Kid McCoy" the famous boxer, whose real name is Norman Selby, appeared in a London police court on an extradition charge that he committed larceny within the jurisdiction of the Belgian government. It was charged that the jewels of Princess Thurn and Taxis, worth $80,000 were taken by McCoy while a guest at The Grand Palace hotel at Ostend. As there was no evidence to warrant the ordering of extradition, McCoy was released by the magistrate. The original warrant had been issued on the statement of a drunken woman, who when sober, denied the truth of her charge. The story is bound to please as Kid McCoy is one of the best known ring characters in the world and those who read the account of his arrest in the papers last July will be glad to see at The Luna how he was vindicated of the charge of larceny.

LITTLE MATTER OF LAW

PREVENTED MARRIAGE OF FLORENCE BROMLEY, AUTHOR.

Who Sought to Wed His Affinity Within an Hour After Acquittal on Murder Charge—To Try Again.

Newark, N. J., Oct. 20.—A little matter of law prevented Florence Bromley, author, from becoming the wife of Allison MacFarland within an hour after his acquittal for the murder of his wife.

The marriage license clerk had proceeded half way in his preparation of the license permitting them to wed when discovery was made that Miss Bromley had not brought along the decree of divorce from her former husband. This halted proceedings and the remarkable couple turned disconsolately away. Had MacFarland succeeded in marrying Florence Bromley, the ceremony would have been performed on the first anniversary of the death of his first wife, whose murder was charged to his infatuation for the woman he now seeks to make his bride.

In the intervening period he has been tried and convicted of murder, sent to the death house at Trenton, where he was able to count the hours that stood between him and electrocution and he has felt the unutterable joy of a reprieve and a new trial when hope had been abandoned.

MINERS DEMAND THEY BE HAULED TO AND FROM WORK

Crooksville, O., Oct. 19—Employes at the Rend mine were on a strike several days this week and are now back at work pending a settlement. It is said that the mining company refused the men the privilege of riding to and from their work in the mine and when the miners learned of the order they immediately quit work. While the miners have no agreement with the operators relative to being hauled to and from their work, it is the custom throughout the country over for the companies to allow the employes the privilege.

BODY FOUND BY CHICAGO POLICE

BELIEVED TO BE THAT OF MRS. ETHEL BOGGESS, WHO HAS BEEN LONG MISSING.

COUNTRY-WIDE SEARCH MADE

By Friends of Woman at Time She Disappeared—Body Was Floating in Lake Michigan, But Could Not Be Identified by Husband.

Columbus, O., Oct 20—The body of a woman was found in Lake Michigan Saturday morning that is believed by the Chicago police authorities to be that of Mrs Ethel Keating Boggess, daughter of Thomas J. Keating of Columbus, who has been missing from her home in Kansas City since midsummer. She was last heard from along the Mississippi river south of St. Louis and when, after long search, the hunt for her was given up, both Dr. Boggess, her husband, and her parents here believed she had lost her life in the Mississippi river and that the body would be found there.

Mind Turned by Suffering.

Mrs. Boggess, suffering from bodily ailments that had affected her mind, left the home of her parents without advising them of her intentions on July 9th. She reached her home in Kansas City after being absent for some days and told her husband that she had intended committing suicide in Chicago, but she could not bring herself to do it without first seeing him.

The body found at Chicago was floating near the mouth of the Chicago river. Dr John S. Boggess, the husband, tried to identify it, but could not on account of its condition. It may be impossible ever to establish the identity of this body.

LEAVE IT TO HIS FRIENDS

Says Charles Hilles, in Response to Attack Made by McCormick Before Clapp Committee.

New York, Oct. 20—Charles D. Hilles, when he saw the dispatches from Washington to the effect that Medill McCormick had referred to him before the Clapp investigating committee in Washington as a "Character assassin and liar, whose falsehoods incite weak-minded men to actual assassinations," made this reply:

"It is regrettable that any man should attempt to politically capitalize the deplorable incident which has shocked and brought sorrow to every loyal American.

"I canno' handy epithets with Mr. McCormick, and no retort of mine can restrain him. His friends must do that."

"Glass Coffin" in Three Reels at The Mystic

"The Glass Coffin" in three reels is the fantastic, romantic Hindoo picture at The Mystic tomorrow. It should not be missed for nothing quite like it was ever shown in motion pictures and it has an interest all of its own. The story of an ancient Indian princess brought to life after being buried in a glass coffin for a thousand years is interwoven with a romance in which [illegible] figures. Brought to life by an old Brahmin soul is again driven from her body by the same incantations, when it is found she can not gain the love of the nobleman. It is full of intensely interesting situations throughout.

The famous American Sleuth "Nick Carter" is the Mystic feature for Wednesday. The best crime mystery ever unraveled by Nick was the solution of the $100,000 jewel mystery. The power of his deductions and his detective ability make one of the top-liner detective pictures and the Mystic has it of course—Wednesday.
